Arabian Sands is Wilfred Thesiger's record of his extraordinary journey through the parched "Empty Quarter" of Arabia. Educated at Eton and Oxford, Thesiger was repulsed by the softness and rigidity of Western life-"the machines, the calling cards, the meticulously aligned streets." In the spirit

of T. E. Lawrence, he set out to explore the deserts of Arabia, traveling among peoples who had never seen a European and considered it their duty to kill Christian infidels. His now-classic account is invaluable to understanding the modern Middle East. These tests will give parents and teachers a way to assess their child's mastery of the concepts. The text is reproducible for student use. The author, an Australian sailor and maritime historian, made a name for himself as an adventurer in the 1920s and 1930s. He visited Arabia in 1938. In this title, his photographs depict the life and skills of the Arab dhow sailors, of the ports along the route, of Kuwait itself, and of the pearl divers of the Arabian Gulf. The 100+ Series, Geometry, offers in-depth practice and review for challenging middle school math topics such as rotations, reflections, and transformations; congruence and similarity; and sine and cosine functions. Common Core State Standards have raised expectations for math learning, and many students in grades 6-8 are studying more accelerated math at younger ages. As a result, parents and students today have an increased need for at-home math support. The 100+ Series provides the solution with titles that include over 100 targeted practice activities for learning algebra, geometry, and other advanced math topics. It also features over 100 reproducible, subject specific practice pages to support standards-based instruction. Prentice Hall Literature, Penguin Edition (©2007) components for Grade 7.
