[Richard Kearney's Anatheistic Wager](#) Mar 11 2021 Philosopher Blaise Pascal famously insisted that it was better to wager belief in God than to risk eternal damnation. More recently, Richard Kearney has offered a wager of his own—the anatheistic wager, or return to God after the death of God. In this volume, an international group of contributors consider what Kearney's spiritual wager means. They question what is at stake with such a wager and what anatheism demands of the self and of others. The essays explore the dynamics of religious anatheistic performativity, its demarcations and limits, and its motives. A recent interview with Kearney focuses on crucial questions about philosophy, theology, and religious commitment. As a whole, this volume interprets and challenges Kearney's philosophy of religion and its radical impact on contemporary views of God.

[Richard Mallinson's Fast Fiction](#) Apr 11 2021 At only a page each in length, Richard Mallinson's elegantly structured short stories are a pithy fast fiction for a modern multimedia age. A rapid succession of carefully worked observations, the stories read like a dynamic anthology of life's collisions and interactions, its projected plans and unexpected rotations. There is a great joy in the subverted (the interviewer becomes the interviewee; the private detective becomes the conspirator) as well as an interest in the open-ended. Possibility abounds, for these are always tales of the present; the past is unclear and the future unwritten. Adhering to the strict one-page format, the writing is marvelously precise: it is highly disciplined, but infinitely rich, conjuring the most unique and sharply observed characters with remarkably few words. If indeed "we read fiction . . . in order to meet individuals" as the character Tolson declares in Mallinson's "Tolson's Creed," then in this anthology we are introduced to a plethora of distinct personalities, rendered all the more compelling by their relentless unpredictability.

[Richard Baxter and the Mechanical Philosophers](#) Nov 06 2020 Richard Baxter, one of the most famous Puritans of the seventeenth century, is generally known as a writer of practical and devotional literature. But he also excelled in knowledge of medieval and early modern scholastic theology, and was conversant with a wide variety of seventeenth-century philosophies. Baxter was among the early English polemicists who wrote against the mechanical philosophy of René Descartes and Pierre Gassendi in the years immediately following the establishment of the Royal Society. At the same time, he was friends with Robert Boyle and Matthew Hale, corresponded with Joseph Glanvill, and engaged in philosophical controversy with Henry More. In this book, David Sytsma presents a chronological and thematic account of Baxter's relation to the people and concepts involved in the rise of mechanical philosophy in late-seventeenth-century England. Drawing on largely unexamined works, including Baxter's Methodus Theologiae Christianae (1681) and manuscript treatises and correspondence, Sytsma discusses Baxter's response to mechanical philosophers on the nature of substance, laws of motion, the soul, and ethics. Analysis of these topics is framed by a consideration of the growth of Christian Epicureanism in England, Baxter's overall approach to reason and philosophy, and his attempt to understand creation as an analogical reflection of God's power, wisdom, and goodness, or vestigia Trinitatis. Baxter's views on reason, analogical knowledge of God, and vestigia Trinitatis draw on medieval precedents and directly inform a largely hostile, though partially accommodating, response to mechanical philosophy.
