“The Russia that Satter depicts in this brave, engaging book cannot be ignored . . . Required reading for anyone interested in the post-Soviet state” (Newsweek). Anticipating a new dawn of freedom after the disintegration of the Soviet Union, Russians could hardly have foreseen the reality of their future a decade later: A country impoverished and controlled at every level by organized crime. This riveting book views the 1990s reform period through the experiences of individual citizens, revealing the changes that have swept Russia and their effect on Russia’s age-old ways of thinking. “With a reporter’s eye for vivid detail and a novelist’s ability to capture emotion, he conveys the drama of Russia’s rocky road for the average victimized Russian . . . This is only half the story of what is happening in Russia these days, but it is the shattering half, and Satter renders it all the more poignant by making it so human.” —Foreign Affairs “[Satter] tells engrossing tales of brazen chicanery, official greed and unbearable suffering . . . Satter manages to bring the events to life with excruciating accounts of real Russians whose lives were shattered.” —The Baltimore Sun “Satter must be commended for saying what a great many people only dare to think.” —The Globe and Mail (Toronto) “Humane and articulate.” —The Spectator “Vivid, impeccably researched and truly frightening . . . Western policy-makers would do well to study these pages.” —National Post Over the last decade, audiences worldwide have become familiar with highly acclaimed films from the Romanian New Wave such as 4 Months, 3 Weeks and 2 Days (2007), The Death of Mr. Lazarescu (2005), and 12:08 East of Bucharest (2006). However, the hundred or so years of Romanian cinema leading to these accomplishments have been largely overlooked. This book is the first to provide in-depth analyses of essential works ranging from the silent period to contemporary productions. In addition to relevant information on historical and cultural factors influencing contemporary Romanian cinema, this volume covers the careers of daring filmmakers who approached various genres despite fifty years of Communist censorship. An important chapter is dedicated to Lucian Pintilie, whose seminal work, Reconstruction (1969), strongly inspired Romania's 21st-century innovative output. The book's second half closely examines both the 'minimalist' trend (Cristian Mungiu, Cristi Puiu, Corneliu Porumboiu, Radu Muntean) and the younger, but no less inspired, directors who have chosen to go beyond the 1989 revolution paradigm by dealing with the complexities of contemporary Romania. The Apocalypse didn't end with a BANG, but with a whimper. Silently, the 'amnesia wind' swept away all of mankind's knowledge. Thousands of years of human civilization vanished overnight as people forgot how to use the tools of modern civilization; who they were, how to speak - everything!

Technology decayed as mankind was reduced to an extremely primitive level. Two years after the devastation, a young man explores a nation reduced to barbarism: America. Miraculously re-educated after the cataclysm, he is accompanied by a young woman - somehow spared the obliterating effects of the amnesia wind. Pursued by a relentless killing machine, they search for those responsible for stealing their memories. Society is broken. We can design our way to a better one. In our interconnected world, self-interest and social-interest are rapidly becoming indistinguishable. If current negative trajectories remain, including growing climate destabilization, biodiversity loss, and economic inequality, an impending future of ecological collapse and societal destabilization will make "personal success" virtually meaningless. Yet our broken social system incentivizes behavior that will only make our problems worse. If true human rights progress is to be achieved today, it is time we dig deeper—rethinking the very foundation of our social system. In this engaging, important work, Peter Joseph, founder of the world's largest grassroots social movement—The Zeitgeist Movement—draws from economics, history, philosophy, and modern public-health research to present a bold case for rethinking activism in the 21st century. Arguing against the long-standing narrative of universal scarcity and other pervasive myths that defend the current state of affairs, *The New Human Rights Movement* illuminates the structural causes of poverty, social oppression, and the ongoing degradation of public health, and ultimately presents the case for an updated economic approach. Joseph explores the potential of this grand shift and how we can design our way to a world where the human family has become truly sustainable. *The New Human Rights Movement* reveals the critical importance of a unified activism working to overcome the inherent injustice of our system. This book warns against what is in store if we continue to ignore the flaws of our socioeconomic approach, while also revealing the bright and expansive future possible if we succeed. Will you join the movement? Two people discover the healing power of love in this Coulter Family romance from New York Times bestselling author Catherine Anderson. Francisco Franco, and the Republicans polarised international opinion. The Nationalists received aid from the fascists -- Nazi Germany and Italy; the Republicans from Russia and the International Brigades. German assistance started in July 1936, when Hitler sent Ju52 transports to Morocco from where they transported the Army of Africa to Spain. In October 1936, Hitler gave permission for the Condor Legion to be formed. An autonomous unit responsible only to Franco, the legion participated in all the major engagements of the war -- including Brunete, Teruel, Aragon and Ebro -- but possibly its best remembered participation was the carpet-bombing of the market town of Guernica, immortalised by Picasso. The Condor Legion returned to Germany in 1938"--Page 4 of cover. The hero hunter is near death when the Monster Association attempts to steal him away, unleashing Centichoro in the process. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris. The raging question in the world today is who is the real Vladimir Putin and what are his intentions. Karen Dawisha's brilliant Putin's Kleptocracy provides an answer, describing how Putin got to power, the cabal he brought with him, the billions they have looted, and his plan to restore the Greater Russia. Russian scholar Dawisha describes and exposes the origins of Putin's kleptocratic regime. She presents extensive new evidence about the Putin circle's use of public positions for personal gain even before Putin became president in 2000. She documents the establishment of Bank Rossiya, now sanctioned by the US; the rise of the Ozero cooperative, founded by Putin and others who are now subject to visa bans and asset freezes; the links between Putin, Petromed, and "Putin's Palace" near Sochi; and the role of security officials from Putin's KGB days in Leningrad and Dresden, many of whom have maintained their contacts with Russian organized crime. Putin's Kleptocracy is the result of years of research into the KGB and the various Russian crime syndicates. Dawisha's sources include Stasi archives; Russian insiders; investigative journalists in the US, Britain, Germany, Finland, France, and Italy; and Western officials who served in Moscow. Russian journalists wrote part of this story when the Russian media was still free. "Many of them died for this story, and their work has largely been scrubbed from the Internet, and even from Russian libraries," Dawisha says. "But some of that work remains." At the start of the Spanish Civil War the nationalists sought help for their cause from Germany, following which volunteers from the German Air Force and Army formed what was called the Condor Legion. This force made a significant contribution to General Franco's eventual victory and this included two experimental air units, known as VJ/88 and VB/88. The former's mission was to combat test the new monoplane fighters; the Messerschmitt Bf 109 and the Heinkel He 112. The latter group's task was to test the new twin-engine, retractable undercarriage bombers; the Heinkel He 111, the fast Dornier Do 17 and the Junkers Ju 86. The Heinkels made their combat debut on 9 March 1937, when they attacked Republican held airfields in support of the Battle of Guadalajara. The Heinkel proved superior to the two other German medium bombers, being both faster and carrying a heavier bomb load. Likewise, the Messerschmitt Bf 109 was quickly found to be the better of the two fighters. This book aims to examine the history of the men and machines that served in those units. The Führer thought the matter over. I urged him to give support [to Franco] under all circumstances, firstly, in order to prevent the further spread of communism in that theatre and, secondly, to test my young Luftwaffe at this opportunity in this or that technical respect. Herman Göring at the Nuremberg War Trials. The gripping story of Pulitzer Prize-winning poet Elizabeth Bishop and her relationship with the extraordinary Brazilian woman Lota de Macedo Soares. In 2011, all over the Arab World, veiled women took to the streets to protest. Their calls for change were briefly celebrated, soon derided, and eventually ignored. For the first time on stage, The Singing Stones gives voice to their extraordinary stories. These are the women who snitched on Gaddafi, marched on Tahrir Square, defended the bloody borders of Kurdistan, and became the heroines of our century's greatest struggle. But who are they? What led them to revolution? And where do they go from here? The Singing Stones is a fearless exploration of women and the Arab Spring. The bombing of Guernica has become a symbol of Nazi involvement in the Spanish Civil War, but the extent of the German commitment is often underestimated. The Luftwaffe sent 20,000 officers and men to Spain from 1936 to 1939, and the Condor Legion carried out many missions in support of the Spanish Nationalist forces and played a lead role in many key campaigns of the war. Aircraft that would play a significant role in the combat operations of World War II (the Heinkel 11 bomber, the Me 109 fighter, and others) saw their first action in Spain, fighting against the modern Soviet fighters and bombers that equipped the Republican Air Force. Condor Legion bombers attacked Republican logistics and transport behind the lines as well as bombing strategic targets, German bombers and fighters provided highly effective close air support for the front-line troops, and German fighters and anti-aircraft units ensured Nationalist control of the air. The experience garnered in Spain was very important to the development of the Luftwaffe. The war allowed them to hone and develop their tactics, train their officers, and to become the most practised air force in the world at conducting close support of ground troops. In effect, the Spanish Civil War proved to be the training ground for the Blitzkrieg which would be unleashed across Europe in the years that followed. In this rigorous new analysis, Legion Condor expert James Corum explores both the history and impact of the Luftwaffe's engagement during the Spanish Civil War and the role that engagement played in the development of the Luftwaffe strategy which would be used to such devastating effect in the years that followed. Klarion, the witch boy, turns the super-hero world upside down as he changes a band of young heroes into adults in an adventure which determines the fate of the planet. This volume will present the reader with photographs of a variety of motorized transport vehicles including cars and trucks, armored cars, and half-tracks, both armored and unarmored, used by the German Wehrmacht during World War II, along with some captured enemy vehicles that were pressed into service. This hardcover, landscape format book's brief introduction is followed by more than one hundred mainly unpublished photographs, printed in the highest possible quality. Both the introduction and the captions are bilingual (English/Hungarian). This volume is a comprehensive compilation of primary textual sources pertaining to the history of Hunnic peoples in the vast area encompassing Central and South Asia. Sources in nearly a dozen languages have been carefully selected by scholars with a specialisation in the particular language and relevant research experience. Each excerpt in the chrestomathy is presented in the original language, accompanied by an authoritative translation into a modern European language to make it accessible to specialists of other fields. Many texts are, moreover, accompanied by a commentary highlighting crucial points of interest, problematic issues and connections to the information revealed in other sources. The Sourcebook is the outcome of an interdisciplinary workshop held at Eötvös Loránd University (Budapest, Hungary) in August 2017, organised by the project Beyond Boundaries and funded by the European Research Council. The initial compilation of source texts was selectively

presented, analysed and discussed at this workshop, culminating in the present volume, whose publication has also been supported by the ERC. The authors and the editor present the book to the community of scholars and enthusiasts in hopes that, by making pertinent primary sources accessible, it will serve as a solid foundation on which to base future research. The included commentaries are thus not intended to be exhaustive, but to instigate further enquiry. For in-depth discussion of many issues raised here, a Companion series is planned to follow the Sourcebook. The first companion volume, a study of the Alkhan by Hans Bakker, is released simultaneously by Barkhuis, Groningen. Jordan Berman would love to be in love, but that's easier said than done. So until he meets Mr. Right, he wards off lonely nights with his trio of close girlfriends. How an advertisement erected in 1923, touting the real estate development Hollywoodland, took on a life of its own is a story worthy of a movie itself. Leo Braudy traces the remarkable life of this distinctly American landmark, which has been saved over the years by a various fans and supporters, among them Alice Cooper and Hugh Hefner, who spearheaded its reconstruction in the 1970s. He also uses the sign's history to offer an intriguing look at the rise of the film business from its earliest, silent days through the development of the studio system that helped define modern Hollywood. Mixing social history, urban studies, literature, and film, along with forays into such topics as the lure of Hollywood for utopian communities and the development of domestic architecture in Los Angeles, *The Hollywood Sign* is a fascinating account of how a temporary structure has become a permanent icon of American culture. “An entertaining tale.”—*The Washington Post* Original lie -- Jobs mirage -- Charity doghouse -- Off the books -- Collecting tribute -- Don't ask, don't know -- Conflicts of interest -- Tax scam -- Polishing apple -- The Koch papers -- Wall scam -- Opportunity knocks -- Dangerous favors -- Expensive juice -- The shipping news -- Russian money man -- Promises, promises -- Family first -- After Trump.
